

TENANT EVACUATION

Location

Los Angeles, CA

Incident

An office with several high-profile tenants received a printed **bomb threat** from an unknown user, forcing the evacuation of the building for **2 DAYS**.

Building(s)

Commercial REIT-owned High-Rise Office

Cause

The printer resided on a **public-facing network** set up by a contractor, allowing printer **access to anyone** on the internet.

Resolution

Owner determined that **contractors** were responsible for **improper setup** and **maintenance** of the network. The network hosting the printer was eventually **secured** by the contractor.

Cost

Average LA Rent **\$110/ft²**
PER YEAR

Building Size **500K/ft²**

Total Estimated Cost

\$300K

How Can We Help?

Our Remote Access Management identifies and cloaks all public-facing networks and devices.
